

Specialist support for Idaho's medical professionals on the frontlines of COVID-19

Get expert knowledge about treatment and diagnosis of coronavirus in a virtual learning network with other Idaho providers.

Learn best practices, connect with peers from around the state to exchange information and get feedback on patient cases.

Curriculum includes:

- COVID-19 epidemiology and infectious disease principles
- Personal protective equipment best practices
- Pharmacy updates
- Inpatient and outpatient management
- Behavioral health considerations and more

Our interdisciplinary panel includes experts in infectious disease, geriatrics, palliative care, pharmacy and care management.

What does ECHO Idaho offer?

- Free CME for health care professionals
- Collaboration, support and ongoing learning with experts and other physicians/care teams
- Better care for patients in their home community

How does it work?

- Join 1-hour online video conferences
- Sign up to participate to receive regular emails with login information, agendas and resources. Discuss and share:
 - Case presentations by participants
 - A brief, high-yield didactic presentation by experts

Why ECHO Idaho COVID-19?

Like many communities on a national-scale, Idaho's health care providers are overwhelmed by the demands of COVID-19. Access to specialist knowledge, interactive education and mentoring through Project ECHO improves lives, reduces health care costs and improves access to care for patients across Idaho.

What COVID-19 participants are saying:

Gaining information regarding the response/ differences in response and actual data that is not reported via the news. Idaho is different than all the other states. – RN, Boise, ID

Honestly, simply seeing and hearing that Idaho's leadership in health care is responsive to this outbreak. – Medical Lab Manager, Nampa, ID

Best information in the country coming from this conversation. – NHA, LCSW, Aston, ID

[ECHO] was such an easy and effective way to give access to the professionals that are on the front lines of this virus. – RN, Idaho Falls, ID

By attending the COVID-19 program, I feel more confident about treatment regimens and how to counsel outpatients regarding this disease. – MD, Mountain Home, ID
