

FIRST RESPONDER SUICIDE MANAGEMENT AND INTERVENTION

Webinar Description

This four hour highly interactive course is specifically designed for EMS and First Responders. Attendees will develop skills in evidence-based suicide risk assessment and field response. In addition, the course will instruct EMS/First Responders how to support themselves, those they supervise, and community members they serve.

Webinar Instructor

Dr. Kent A. Corso is a licensed clinical psychologist and board-certified behavior analyst, as well as experience as an Emergency Medical Technician. His experience in suicide prevention began almost two decades ago, while serving as an officer in the U.S. Air Force. Since then, Dr. Corso has researched, developed and trained others to implement evidence-based methods of suicide prevention and intervention nationally and internationally. He has published numerous peer-reviewed research papers and with his expertise in behavior analysis, is a leading expert in novel scientific methods and digital technologies for analyzing variables and patterns associated with suicide.
